

KEEP AUSTRALIA FREE

REJECT THE MOST AUTHORITARIAN SURVEILLANCE IN HISTORY

BAN A.I. FACIAL RECOGNITION SURVEILLANCE - KEEP AUSTRALIA FREE

Artificial Intelligence Surveillance is a worldwide scam designed to enslave humanity. It has NO PLACE in Australia. It is the most oppressive surveillance in human history and must be banned in the free world. If not stopped it will give the government and corporations full power over every individual with no ability to oppose it. It will give powers to

1. Remove freedom of movement & travel
2. Remove freedom of speech
3. Remove freedom to associate with who you choose
4. Restrict freedom to purchase whatever you wish
5. Remove freedom to protest
6. Remove ability to protect assets and personal bank accounts.
7. Remove freedom to reject A.I. Surveillance in the future

Exactly as it is in China, once A.I. Surveillance is in place there is no escape. You are trapped in a digital prison forever. You will be forced to follow any rules government dictate. You will be powerless to say NO. A.I. surveillance is used in Australian prisons to remove all freedom from prisoners - It is used in China to oppress and dictate over the people of China. It is not suitable for our democracy and community. It has NO PLACE in our free country.

A.I. surveillance technology is DANGEROUS AND NOT SAFE. It will not protect you from crime. It is the most dangerous technology known to humanity in history. Extreme surveillance will allow government and corporations opportunity to control every aspect of your life and power to take away all freedoms & rights.

Sporting events, concerts, shops, etc.. DO NOT require overreaching, prison type powers of surveillance to make them safe. Theft in stores does not justify extreme prison surveillance technology.

The quiet and secretive installation of A.I. surveillance tools in our community is a growing threat to privacy and freedom. It was a condition of entry at the 2025 Australian Tennis Open and will continue to be used in more public areas. It is a crucial time in history. We must act NOW to prevent a future where all humanity is watched, tracked, and controlled by a few, like a prison system or like China.

Our ancestors gave their lives to keep Australia free. IT'S TIME TO FIGHT TO KEEP OUR COUNTRY FREE. Our children and grandchildren's future is at risk. Keep Australia Free - Ban A.I. surveillance.

SAVE AUSTRALIA'S FUTURE

1. Visit our website: **SayNO.au** and get family & friends to sign our petition.
2. Boycott all places that use facial recognition surveillance.
3. Contact your local Member of parliament and demand a BAN.
4. Speak up. Share this information about dangers of extreme surveillance.
5. Donate and help us pay expenses to keep this campaign going and reach more people.
6. Sponsor a large banner or advertisement by emailing us directly at: saynoaustralia@proton.me
7. Be a foot soldier and distribute flyers in other areas by downloading the file on our website: **SayNO.au**
